

Dear Sir or Madam,  
I am very distressed to learn of the National Association of Broadcaster's attempt in petition 04-160 to dictate to the users; like myself; of satellite radio options such as traffic and weather channels. I pay a premium for this service because it provides me with the option to hear what I want when I want to hear it.

I respectfully urge you to deny this petition and continue to allow consumers a choice in radio options.

Thank you for your kind consideration.

Sincerely,

David Hunt
